

SREE VIDYANIKETHAN ENGINEERING COLLEGE

Sree Sainath Nagar, A. Rangampet

Department of Electrical and Electronics Engineering

(Electrical Technical Association)

Annual Report

ETA (Electrical Technical Association) is a student's association started, run and maintained by students aiming at honing their inter- and intra-personal skills. It was started during the academic year 1997-98 and was the first of its kind.

Main objectives of ETA:

- > To enhance technical knowledge in the field of Electrical Engineering through quizzes, seminars, workshops, industrial visits etc.,
- > To boost the confidence levels for facing interviews through group discussions, paper presentations, mock interviews, event management, time management etc.,
- > To inculcate morals and ethics for wholesome development of oneself.

ETA is also a platform to bring out the hidden inherent talents of our students. ETA organizes a number of technical activities like 'Talk on innovations', 'Poster presentation', 'Technical quiz', 'Technical paper presentation', 'Mock Interviews' and extracurricular events like singing competition, General quiz, Pencil sketch, Debate, Spell bee, Storytelling, Chess, Reversing words, Rangoli, Elocution in Telugu, Cine buzz, Throw ball, Tennicoit, Cricket, Volley ball etc., Industrial tours gave industry exposure to the students.

In near future we plan to conduct many other events like group discussions, workshops, circuit debugging, innovative ideas, principle behind greater innovations, notice board events, arts and exhibits etc., for the benefit of the members of ETA.

Technical events enhance the knowledge and skills of the students. Technical paper presentations help the students prepare for their project work in an organized manner. It also gives awareness on upcoming technologies in the field of Electrical Engineering. Final year students train and guide their juniors regarding career prospects. Mock interviews are conducted by Final year students to enable their juniors face interviews with ease. Leadership skills are acquired by the students in organizing various events. Poster presentation helps in designing a poster, expressing their objectives and outcomes clearly.

Inter-departmental competitions are also planned to make the students mingle and compete with peers from various departments. With these activities students get motivated. Many of our final year students were placed in various multi-national companies through campus selections.

ETA valedictory is conducted every year to share their views regarding Electrical Technical Association. Students are honoured with prizes to boost their self esteem.
