

SREE VIDYANIKETHAN ENGINEERING COLLEGE

(Autonomous)

Sree Sainath Nagar, A.Rangampet-517 102

Department of Electronics and Communication Engineering

A Report on

Expert Lecture on, **"Importance of Project work"**

Programme : Three-Day On-site Training under Faculty Development Programme

Date : 02 January 2018

Target Group : IV B. Tech. II Sem ECE Students (Sec-A, B, C, D)

No. of participants : 240

Details of the Resource person:

Name of the Technical Person : **Dr. P V Ramana**

Designation : **Professor & Head, Dept. of ECE, SVEC.**

One day Expert Lecture on, "Importance of Project work" was organized by department of ECE, SVEC on 2nd January, 2018. The best way to master a subject is by doing projects. Through a project you not only get a deeper understanding of the subject but also gain hands-on practical experience. If you are looking to do internships in college, the best way to catch the companies attention is through projects.

Why projects? How will it help me?

Projects are generally done as a combined team effort. Two or more students work under a guide or a staff to get a certain results. By doing a project, you will

1. Understand your subject better
2. Get practical experience
3. Chance to showcase your skills
4. Learn about team work, communication skills and responsibilities

When companies look for interns, they prefer students who have good understanding of the subject with atleast some hands on experience. The best to achieve both is by doing projects.

When can I do a project?

There is no fixed time to do a project. You can do it right from your first year in college. If you are looking to do a technical project, then the best time to start would be mid second year. It's not mandatory that you do many projects but make sure that you atleast do one project. A lot of students tend to do few small projects from their second year and do a big project in their final year. By showcasing your projects, you can even look for internships while in college.

What kind of projects can I do?

You can do any kind of projects based on your interests or subjects. The best way to go about this is to figure out what you are interested in. For example, if you are interested in Designing, then you can design a website of your own or create a poster using Photoshop or Illustrator. So the first step is to find your interest and then do projects in your area of interest.
