

Department of Computer Science and Engineering

EXPERT LECTURE PROGRAM

One Day Expert Lecture on “**Machine Learning and its applications in Research**” under TEQIP – II was Inaugurated by **Prof.T.Gopala Rao**, special officer SVEC, A.Rangampet, 12 Dec 2015 for I, II M.Tech CS/CNIS Students at EDC Cell.

Mr. Biswajith Paul discussed the concepts of various simulation tools available for the students in Machine Learning. He also discussed about the various importance of machine learning concepts and its future applications and Neural Network concepts and Fuzzy. Resource person discussed the importance of artificial intelligence and its applications in the future world. In this expert Lecture program students got the general outline and overview about the machine learning.

Resource person also discussed the various tools regarding Neural networks and the method to handled that tools.
