### A REPORT

#### <u>ON</u>

## Faculty training on LMS( Learning Management System)

LMS is an interactive and fun realm in the classroom that enhances classroom learning. Moreover, it ensures that every student has equal and updated access to the course material content leveraging their learning trajectory . Also, Students can access the course materials at their convenience to learn at their pace. In this regard, Department of Mechanical Engineering organized an programe on training on LMS for the faculty members.

Efforts were made by the department to train the members about LMS. The interactive session was handled by Dr. Krupakaran R L on 26<sup>th</sup> May 2023 in Room no 2606.

The key objectives of this session include:

- 1. Familiarization with the LMS Interface
- 2. Course Creation and Content Management
- 3. Monitoring Student Progress
- 4. Continuous Improvement and Innovation

Dr. Krupakaran R L, discussing the concepts of LMS

# SREE VIDYANIKETHAN ENGINEERING COLLEGE (AUTONOMOUS)

Sree Sainath Nagar, Tirupati - 517102

Dr. Krupakaran R L, Introduced faculty to the basic navigation, layout, and features of the LMS platform. Further, he demonstrated how to track and analyze student engagement, participation, and performance data within the LMS. Also, various types of assessments, how to set due dates, and understand the grading process were discussed. Members were also given awareness on data protection measures and how to adhere to institutional policies.

The training program was interactive, hands-on, and provided ample opportunities for faculty members to practice using the LMS features. Feedback was taken to ensure that the training objectives are met effectively.
